# SCHOOL-WORK EXCHANGE

A way to learn and experiment,  
an integration between  
education and the world of work

## HOW?

Over 30 years' good practice in the running of summer work placements for students (3week duration) at the end of the 4th grades in companies, banks, public /private agencies and hotels. The placements are monitored by tutoring teachers who follow students from preparation to conclusion of the experience. An opportunity for students to approach the world of work, test their knowledge and benefit from it through an expendable competence-building work experience

# AFTER THE DIPLOMA

**WORK**

**HIGHER TECHNICAL  
SPECIALISATION  
COURSES**

**UNIVERSITY**

Erasmus+

**Develop projects to strengthen responsible citizenship skills, with particular attention to respect for legality, the prevention of discrimination, solidarity, intercultural education and peace.**

**Promote and evaluate active participation in outbound activities such as contests, learning weeks, study holidays abroad and exchanges both for students and teachers.**
