GAE

ENTREPRENEUR SUPPORT OFFICE

At the Entrepreneur Support Office we develop the skills of our students while strengthening the relationship between the ESTG and the business community.

With this approach, and in the light of the needs of the companies, it is possible for ESTG to make itself available to the business community in the work and skills developed in the different scientific areas, be it education, research or cooperation.

Based on networking, collaboration and knowledge sharing, GAE's mission is to bring together entrepreneurial companies, teachers, researchers and students in activities conducive to creating new research, innovation and business initiatives that create value for the country and, in particular, to the region where the School is inserted.

+INFO gae.estg.ipp.pt

INTERNATIONAL OFFICE

The International Office serves as the ESTG`s information center within the framework of international relations. It supports the organization of student/faculty/staff mobility (outgoing and incoming) for partner institutions under mobility programs and for other teaching and R&D networks that ESTG integrates.

The International Office also disseminates projects and mobility proposals that may be of interest to ESTG`s students and/or lecturers.
